Oct 10, 2019 Hello everyone, I'm having a problem with the SST tools for the canon iR-4500. Jul 6, 2013 I am very familiar with your canon products and you are an amazing company, so sorry for such a stupid question. Please answer! Whenever i use any of the SST tools, an error message appears upon finalizing the transfer of the driver to the device. I have tried Irr4500wusb1.0.101.sst and Irr5000wusb1.0.102.sst. I have read up on this forum but all i can find that has answered my problem is the use of a program called PDmapper. I use this program to transfer the files to my pc. Is there any way to make this program compatible with canon sst tools?
